VL Monitoring Register	Yes
Facility DSD Register	Yes
HIV Patient Tracking Register	No
EAC Monitoring Register	Yes
This site's M&E Unit backstop has (or has received) written guidelines or SOPs on …	Id mollit minima eiu
There is a documented organizational structure/chart that clearly identifies positions that have data management responsibilities	Partly
Score: 2	
There is a training plan which includes staff involved in data-collection and reporting at all levels in the reporting process.	Partly
Score: 2	
All relevant staff have received training on the data management processes and tools in the last 12 months.	Yes Completely
Score: 3	
A senior staff member is responsible for reviewing the aggregated numbers quality of data (i.e., accuracy, completeness and timeliness) prior to the submission/release of reports	No - Not At All
Score: 1	
A senior staff member is responsible for reviewing the quality of date (i.e. accuracy, completeness, integrity etc) of NMRS line list prior to the submission/release of reports	Yes Completely
Score: 3	
The M&E Unit has documented and shared the definition of the indicator(s) with all relevant levels of the reporting system (e.g. state, facility and service delivery points).	Yes Completely
Score: 3	
[object Object]	Partly
Score: 2	
,,, what they are supposed to report on.	Partly
Score: 2	
… how (e.g., in what specific format) reports are to be submitted.	No - Not At All
Score: 1	
… to whom the reports should be submitted.	N/A
Score: 0	
… when the reports are due.	N/A
Score: 0	
The M&E Unit has identified a standard source document (e.g., medical record, client intake form, register, etc.) to be used by all service delivery points to record service delivery.	N/A
Score: 0	
The M&E Unit has identified standard reporting forms/tools to be used by all reporting levels.	No - Not At All
Score: 1	
Clear instructions have been provided by the M&E Unit on how to complete the data collection and reporting forms/tools including DHIS and forms on NMRS	Yes Completely
Score: 3	
The data collected by the M&E system has sufficient precision to measure the indicator(s) (i.e., relevant data are collected by sex, age, etc. if the indicator specifies disaggregation by these characteristics).	Yes Completely
Score: 3	
All source documents and reporting forms relevant for measuring the indicator(s) are available for auditing purposes (including dated print-outs in case of computerized system).	N/A
Score: 0	
The M&E Unit has clearly documented data aggregation, analysis and/or manipulation steps performed at each level of the reporting system.	Partly
Score: 2	
There is a written procedure to address late, incomplete, inaccurate and missing reports; including following-up with sub-reporting levels on data quality issues.	N/A
Score: 0	
If data discrepancies have been uncovered in reports, the M&E Unit or the Intermediate Aggregation Levels have documented how these inconsistencies have been resolved.	Yes Completely
Score: 3	
Feedback is systematically provided to all sub-reporting levels on the quality of their reporting (i.e., accuracy, completeness and timeliness).	N/A
Score: 0	
There are quality controls in place for when data from paper-based forms are entered into a computer (e.g., double entry, post-data entry verification, etc).	N/A
Score: 0	
For automated (computerized) systems, there is a clearly documented and actively implemented database administration procedure in place. This includes backup/recovery procedures, security administration, and user administration.	N/A
Score: 0	
There is a written back-up procedure for when data entry or data processing is computerized.	Partly

Score: 2	
If yes, the latest date of back-up is appropriate given the frequency of update of the computerized system (e.g., back-ups are weekly or monthly).	Yes Completely
Score: 3	
Relevant personal data are maintained according to national or international confidentiality guidelines.	N/A
Score: 0	
… within each point of service/organization (e.g., a person receiving the same service twice in a reporting period, a person registered as receiving the same service in two different locations, etc).	Yes Completely
Score: 3	
… across service points/organizations (e.g., a person registered as receiving the same service in two different service points/organizations, etc).	Yes Completely
Score: 3	
The reporting system enables the identification and recording of a "drop out", a person "lost to follow-up" and a person who died.	N/A
Score: 0	
The M&E Unit can demonstrate that regular supervisory site visits have taken place and that data quality has been reviewed.	No - Not At All
Score: 1	
Does the site M&E officer generate routine gap analysis to show progress towards set targets?	Partly
Score: 2	
If yes, is this shared with relevant thematic area leads and hospital management	Yes Completely
Score: 3	
[object Object]	No - Not At All
Score: 1	
Does facility upload at least once a week into NDR?	No - Not At All
Score: 1	
Does the facility M&E officer attend the monthly LGA/State M&E meeting	No - Not At All
Score: 1	
….if yes, are reports submitted at the meeting?	No - Not At All
Score: 1

Review the FP capture and recapture process. Verify why recaptured and replaced baseline clients are returning as “not matched”	Iste necessitatibus
Functional computers available for EMR use	No
Score: 0	
Internet is available for clinic activities	No
Score: 0	
Regular power supply or alternative (solar/inverter/Gen)	No
Score: 0	
Facility is secured	No
Score: 0	
Backup and restore procedures in place for the EMR	Partial
Score: 1	
PIMS is operational at the facility	No
Score: 0	
Deduplication protocol available and in use at the facility	Yes
Score: 2	
Adequate FP capture points available? (>1 capture point for big sites)	Yes
Score: 2	
Data integrity module in use at the facility	Partial
Score: 1	
Timely and Daily uploads to the NDR, CDR and Backup repository (Verify)	No
Score: 0	
Role-based access implemented	No
Score: 0	
Password policy enforced	Partial
Score: 1	
Backup frequency (daily/weekly/monthly)	No
Score: 0	
Data stored securely and encrypted	Yes

Score: 2	
Staff understand data protection and confidentiality	Yes
Score: 2	
Note the facility PBS numbers (Baseline, Recapture, Match, Invalid and Duplicate) on NDR	Concurrent
Score: 5	
Verify that facility does not have backlog FP data on the EMR that needs to be uploaded to the NDR.	Yes
Score: 5	
Check if facility has a list of assigned devices pasted on the wall.	No
